1. The following observations were made in the Finsterwalde military post between 11 and 27 September 1952:

Object 1. A German employee stated on 25 September that object 1 was occupied by a headquarters to which two colonels were assigned. Allegedly, one of the colonels was away often. The other colonel was in charge of the Finsterwalde airfield. The latter officer was soon to be promoted to general.

Object 5. Radio truck [REDACTED] was observed in the area of this object on 21 September and radio truck [REDACTED] on 22 September.

Object 8. It was still unoccupied until 27 September.

Object 9. After nightfall on 26 September, as previously observed, the headquarters building (a), buildings (g) and (h) were entirely lighted while only a few windows of buildings (c), (e) and (f) were lighted.¹
